Based in Basel, Switzerland, Rich Kid Blue stands for groovy and varied Heavy-Rock and Stoner-Blues. "Like the fire department, wich never extinguishes fires, but constantly starts new ones" (Chrigel Fisch 2023, bz). Their new LP *Overload* contains eight carefully crafted heavy-rock tracks and is the first release since the last EP from 2016. The four 'kids' worked with a detailed preproduction, completing the song arrangement and mood of each song with additional overdub guitars, organs and more. Having handed the tracks over to Jeff Henson from Red Nova Ranch Ranch led to a clear focus on the guitars and an overall punchy 'in-your-face' feel of the album.

## Band biography

Basel's Powerhouse Kids are back! Since their inception in 2012, the four friends had sworn allegiance to the rough and dark, but always sweet path of heavy rock. The sturdy gang that's been around for over a decade and has built distortion and fuzz walls against the flow of the world is now back with a new album. The dark and yet warm, heart-pounding rhythm with melodious elbow-in-the-face vocals will be heard live in April 2023, as well as on their vinyl and digital LP «Overload». After years of hard effort, the kids are today packed with eight lovingly crafted heavy rock tracks, ready to let the riffs speak for themselves!
